

CLINT MOORE

Tacoma, WA
T: 253-470-6423
E: clint@ivy.io

QUALIFICATIONS SUMMARY:

Software Engineer with 10 years of experience covering many languages and methodologies. I find beauty in the details and continue to expand my knowledge both professionally and in my own projects every day.

Programming in Ruby, Python, Haskell, Erlang, and Common Lisp. I regularly use Postgres, MongoDB, Riak, Redis, Memcached, Couchbase, JSON, XML, REST-ful services, MVC, S3, EC2, and Dynamo.

Strong background in Systems Administration and Devops spanning almost 20 years. Experienced with maintaining and troubleshooting Linux, Mac OS X, Solaris, FreeBSD, NetBSD, OpenBSD, OSF-1, Irix, Tru64, HP-UX, and AIX.

EXPERIENCE:

NINJABLOCKS — 4/2012 - 6/2012

- C programming on the **Arduino** platform.
- Connected **Ruby on Rails** to clustered **Twitter**, **Facebook**, **Dropbox**, **Instagram**, **Growl/Prowl**, **IMAP**, **Jabber/XMPP** workers written in **Haskell** with **ZeroMQ**.
- Worked under tight deadlines due to **kickstarter.com** obligations.

THOUGHTLEADR — 12/2011 - 4/2012

Devops Engineer

- Developed build and deployment automation in **Python** using **Jenkins**, and **Github**.
- Installed **Nagios** for monitoring, and **Graphite** for visualization.
- Maintained **Celery** distributed task queue, **MongoDB**, and **Riak**.
- Coordinated with development team to assess current and future scaling requirements.

TECHNOLOFT, LLC — 2/2010 - 10/2011

- Delivered a Mac OS X **Cocoa** application written in **Haskell**.
- Provided technical sales support.
- Coordinated with customer business unit to define goals and requirements.

WHITEPAGES.COM — 9/2009 - 1/2010

- Maintenance and support of **Ruby on Rails** site.
